

**QUINTREX'S
NEW APEX HULL**

Boat TEST

BILL CLASSON

QUINTREX INTRODUCES NEW APEX HULL

FROM HUMBLE BEGINNINGS IN 1945 QUINTREX HAS BECOME A LEADER IN ALUMINIUM BOAT RESEARCH AND DEVELOPMENT FOR OVER 70 YEARS IN AUSTRALIA. THEY FLARED BOW IN 1968, THE MILLENNIUM HULL IN 1999 AND THEN THE BLADE HULL IN 2011. IN 2017 QUINTREX HAS NOW RELEASED A HULL LIKE NEVER BEFORE – THE APEX HULL.

RIDE

The flare on the new Apex Hull is carried further aft to maintain continual contact

with the water when on the plane, which creates a smoother ride.

A wider, sweeping chine design on the Apex Hull opens the front of the hull to allow the flaring to carry further forward up the stem line, consequently improving rough water performance. By widening the chine on the Apex Hull, Quintrex have achieved increased stability and grip when cornering. The increased surface area at the bow of the Apex Hull provides much greater lift, ensuring a level attitude.

SPACE

The new RSD (Raised Side Decks) featured on selected Apex models is fully-welded

and has increased the overall internal volume of the boat by 20%. The Apex Hull increases

freeboard by 80mm, offering extra comfort, safety and fishability.

A compact side deck design maximises internal width in the Apex Hull. The overall footprint of the Apex Hull has increased by 5%; the forked bow creates room for a large bow seating area on Freestyler models and a large casting platform on Frontier models.

AESTHETICS

The lines of the Apex Hull combined with the forked bow, RSD, and sleek windscreen profile (on Freestyler models) provide a much more modern look.

The new upholstery design featured on the Apex Hull, requires less fittings, resulting in a simple and clean looking internal finish.

CONSTRUCTION

All Apex models 550 and up feature ribs welded to the bottom sheets.

QUINTREX FREESTYLER

Quintrex's new release Freestyler range features the new Apex hull design offering unsurpassed versatility and performance.

The Freestyler range is built on the ground-breaking Apex Hull using a wider, sweeping chine design to improve rough water performance.

To increase hull strength the Freestylers feature standard 4mm bottom sheets and

3mm side sheets across the range (630 has 5mm bottom). The new Raised Side Deck has increased freeboard by 80mm to increase internal volume and improve safety for the occupants.

FWF Fact Box SPECIFICATIONS QUINTREX 530 FREESTYLER

Length Bow-Transom	5.22 M	Weight (boat only)

Max Load (BASIC) 836.00 kg
 Number of People (BASIC) 7
 Height on trailer 1.99 M
 Length on trailer 6.72 M
 Transom Shaft Length L/S

The lines of the Apex Hull combined with the forked bow, Raised Side Deck, and sleek windscreen profile provide a much more modern look. The largest boat in the range, the 630 comes standard with a hidden anchor well and transom door as added luxuries when heading offshore.

The new console storage hatch position allows for easy access and a place to keep valuables close by. The optional features available on the Freestyler range are endless and ensure you'll turn heads.

If watersports are your thing the Freestyler offers an optional wakeboard tower (550

and up), barn door and bow ladder. Also Quintrex now offers a combined ski pole/ bait board for the multi taskers.

The new Apex Hull offers superior performance for watersports as the wider chines have achieved increased stability and grip when cornering. Other optional extras include luxuries such as a picnic table and Fish Pack Rear Lounge.

Available as 510, 530, 550, 590 and 630 models, there is a Freestyler to suit a range of budgets and needs.

QUINTREX FRONTIER

Backing on the success of the Top Ender range, Quintrex have designed and produced a new up market model - the Frontier range with enhanced performance, style and features. Designed on Quintrex's new Apex Hull, the Frontier features an increased flared bottom sheet for greater water contact and a smoother ride.

The Frontier range come in 510, 530, 550, 590 and 630 models and is available as side console or center

console and both are serious fishing machines.

With 4mm bottom sheets and 3mm side sheets across the Frontier range, these boats are built to last. The new Raised Side Decks (RSD) features increased freeboard by 80mm and also allows for concealed controls.

All models have four stainless steel rod holders and an Aluminium Live Bait Tank with viewing window. The hull can also include a bow mount

thruster plate to fit an electric motor for easy trolling.

The new Frontier Console allows plenty of storage room and a larger dash area to accommodate the new 12 inch sounders.

The hatch area under the casting platform now fits 47L and 50L Evakool and can be optioned up to even accommodate the huge 85L!

The rating on the 510 model has been increased from 90hp to

115hp giving even the smallest model in the range unbelievable performance.

If you need to combinewatersports as well as your fishing the Frontier offers an optional ski pole/bait board combination to keep everyone happy.

The Top Ender range has been one of the best selling for Quintrex and now the Frontier range we are able to offer the best in the market.

QUINTREX Stealth Hornet

The Stealth Hornet has been designed with just anglers in mind and is packed full of features designed to land that perfect catch.

The Stealth Hornet comes in 470, 510 and 530 models and is perfect for zipping

through creeks and estuaries. Compared to the existing Hornet models, the Stealth Hornet boasts a 30% increase in storage and front casting platform length. If that's not enough space, the rear casting platform folds over the fixed seats, doubling the rear casting platform.

With 4mm bottom and 3mm sides across the range this boat offers some serious strength and durability.

Now featuring three fold up cleats you won't have to worry about getting lines tangled or toes stubbed, offering complete obstruction free fishing.

The New Stealth Console features extra storage space and increased dash space to fit larger electronics (fits HDS 12) as well as an optional grab rail.

If you want your Stealth

Hornet tricked up even more Quintrex is offering a Dual

Console option on the 530 model for increased storage and passenger comfort.

The optional Stealth Hornet Deluxe Rod Locker is guaranteed to impress your mates

and safely store that prized rod collection.

The new Stealth Hornet has been designed to maximise performance and fishability.

QUINTREX

Yellowfin

Southerner

Quintrex has expanded its popular Yellowfin line up by adding two new models; the 7000 Southerner and 7600 Southerner.

In early 2016 Quintrex revamped the entire Yellowfin range releasing an improved riding hull and unique modern look. Now Quintrex has released two new models designed to tackle the tough rough conditions of the South.

The cabin length has been extended by 300mm allowing for extra protection for drivers and passengers. Carpeted Hood lining now comes standard on all hard top models for improved aesthetic and added comfort.

The 7600 models are now rated to 300hp for some extra grunt; there is also a twin

150 option available for those longer trips offshore. Rain

deflectors now come standard on all hard top models once again allowing extra protection and keeping your passengers dry.

As well as the standard Bait Board, there is now a bait station upgrade available on

all Yellowfin boats which has in built removable tackle station to keep all your gear.

If you're looking to impress your mates the Yellowfin Southerners can now be optioned up to include the LED kit to improve your night fishing experience.

The port side wiper option is a great feature for rough conditions increasing visibility and safety.

The new optional external hand wash is easily activated using a button on the floor while a bilge pump water out a nozzle on the side of the boats for added convenience and safety.
